Accountability Level – ESE classifies schools based on performance and growth; Level 1 is the highest classification and Level 5 is the lowest.

Performance Percentile – A school percentile between 1 and 99 is reported for schools with at least four years of data. This number is an indication of the school's overall performance relative to other schools that serve the same or similar grades. State law requires Massachusetts to classify into Level 3 those schools that are among the lowest performing 20 percent relative to other schools in their grade span. These schools are considered to be the lowest-achieving, least-improving schools in the state.

Progress & Performance Targets – Schools are expected to halve proficiency gaps by 2017; annual targets are established using a school's own baseline data (2011).
